

Join the Dynasty!

Tiger Dynasty Robotics team is comprised of students in grades 9-12 at Fishers High School. We compete in the national FRC ([FIRST Robotics Competition](#)). Each year teams from across the world are presented with a different challenge and given six weeks to design, build and program a robot which can compete successfully.

Your support allows **Tiger Dynasty** students to explore our passion for science and math and gain real life experience in everything from engineering and programming to design and marketing. In the offseason, we share our passion for STEM subjects with children in our community by visiting elementary schools and participating in Outreach events at the Children's Museum and Conner Prairie.

DYNASTY (\$5,000+)	Your name or logo on our website, recognition in our newsletter, pit display, access to our newsletter, recognition on our sponsor banner, your name or logo on our team shirt, your name or logo on our team logo banner and recognition will be sent to FIRST as a Major Sponsor.
